

Elite Athlete Consulting

My name is Doug Menefee.

I have been coaching student-athletes for past 30 years.

I am currently In my 6th season as an asst. coach at American River College.

I've coached at the recreation, high school, travel ball and collegiate level.

During my coaching experiences, my students have learned to be better hitters, fielders, catchers, pitchers and teammates.

I believe in developing the core fundamentals of the game. That provides the confidence the students need to find the opportunity to be successful on and off the field.

I am currently looking for student-athletes who are willing to work hard for their success.

Please Feel free to ask for current/ former student and parent testimonials.

Contact me for available times and days.

Thank you!
